Learning Together - Caring Together

1. INTRODUCTION/RATIONALE:

Whilst they do not occur frequently, Critical Incidents can happen and it is therefore important that we have a plan in place to best respond and manage a traumatic situation should it occur. Critical incident management is an integral part of normal school management practice.

The following procedures details:

- What is a Critical Incident
- Who is involved in the Critical Incident Management Team and Roles & Responsibilities
- The Actions to be taken to manage Critical Incident
- Appendices containing useful tools and templates for managing a Critical Incident.

2. PROCEDURE:

Definition of a Critical Incident

A critical incident may be defined as any sudden and unexpected incident or sequence of events which causes trauma within a school community and which overwhelms the normal coping mechanisms of that school.

What types of critical incidents can affect a school?

- Sudden death of a pupil or member of staff
- Disappearance of a pupil or member of staff
- Death or injury of a pupil or staff member on a school outing
- Severe injury to pupil or staff member as a result of a road traffic accident
- Serious assault on a pupil or staff member in school
- Violent/disturbed intruder on school premises during a school day
- Serious damage to school building or property through fire, flood or vandalism
- Civil disturbance in local community
- Pupil with contagious illness
- Immediate evacuation of the school with no likelihood of return for a number of hours

For an incident to be declared 'critical' consultations must first take place between the person at the school handling the incident (usually the Principal or Delegate) and a CCMS/EA/DENI representative. In responding to an incident, the aim should always be to ensure that rapid and appropriate action is taken; accurate information is provided; normal school routines are maintained as far as possible and immediate, sensitive and non-intrusive support is offered.

An emergency is difficult to define and the procedures will not apply to all emergencies.

The two most frequent on-site emergencies are likely to be the need to evacuate the building or a serious/fatal accident.

Information Management & Data Privacy:

The following information will be held in school and will be made available to each member of the Critical Incident Management Team:

- Contact number and mobile numbers of all staff
- Names of Key Holders
- Significant medical information relating to pupils and staff on school outings

This information along with incident reports and details will be maintained in accordance with Data Privacy guidelines.

Action Plan for Dealing With a Critical Incident:

Very often the Education Authorities (EA's) senior Education officer and his/her team will take over much of the management of the incident, leaving the principal free to deal with pupils, parents and colleagues. In any event, as soon as an incident is declared 'critical', the following plan of action, in order of priority, should be put in place.

Short Term Actions (Day One):

- Firstly take whatever action necessary to ensure the safety of pupils, staff and any other persons associated with the incident
 - Contact emergency services as appropriate
- Gather accurate information
 - Date, time and location of the incident
 - Details of individuals involved
 - Brief description of the incident including any unconfirmed reports
 - Record of immediate action taken.
- Meet with Critical Incident Management Team and
 - Allocate roles to staff members.
 - Establish a central information point
 - Set-up a dedicated phone line
 - Inform key people and seek support as appropriate with other relevant agencies e.g. Police, Fire Brigade, School Nurse, Educational Psychologist & Educational Welfare Officer etc....
 - Consider the need for an Exceptional School Closure – refer to the Department of Education's Circular 2005/08 for further advice.
- Brief all staff
- Inform all pupils
- Inform all parents
 - In very serious circumstances it may be more appropriate for the police to make the initial contact
 - Keep a log of who has been contacted and when
 - Ensure parents are not left alone in distress
 - Protect the family's privacy
- Protect children, parents and staff from publicity, direct all media enquiries to EA /CCMS officer (The only other persons allowed to speak to media are the principal and the Chairperson of Governors)
- Debrief staff at the end of the day
- Meet with Critical Incident Management Team (End of day) and agree plan for following day

Medium-Term Actions (24-72 Hours):

- Record any further information / details since previous day
- Maintain central information point
- Maintain dedicated phone line
- Deal with staff cover
- Brief staff regarding practical arrangements, support for pupils & self-care etc.
- Provide pupils with further information as appropriate
- Provide further information to parents as appropriate
- Consider Memorial / Funeral plans if agreed by bereaved family
 - Selection of students/staff to attend funeral
 - Involvement of pupils/staff in liturgy if applicable
 - Provision of flowers, Mass Cards, Book of Condolences, etc.
- Debrief staff at the end of the day
- Meet with Critical Incident Management Team (End of day) and agree plan for following day

Longer Term Actions:

- Monitor students for signs of continuing distress
- Acknowledge the consequences of the event on children, staff and others
- Provide opportunities for pupils and staff to express their personal reaction to what has happened and to talk about it
- Where necessary make contact with child or colleague at home or in hospital
- Make sensitive arrangements for the return to school of anyone who has been injured/affected
- Inform new staff of which pupils/staff were affected and in what way
- Decide on appropriate ways to deal with anniversaries
- Try to re-establish normal routines
- Evaluate response to incident and amend Critical Incident Plan appropriately
- Share advice and information about what has happened

3. SUMMARY OF ACTION PLAN:

- As far as possible, make sure staff, pupils and other personnel are safe.
- Contact emergency services
- Inform EA/CCMS/DENI support services and obtain name and direct phone number of the officer delegated to manage the incident
- Keep a log of all events and actions
- Inform Chairperson of Governors
- Contact parents and provide such support as may be required. Stick to the facts and avoid speculation. In very serious situations, it may be preferable for the police to make contact with parents.

No-one can legislate for the unknown, but we hope that by having clear procedures and clear lines of responsibility that we will be in a better position to do the right thing if the time comes. We trust this policy will never be tested.

GENERAL ADVICE

- Provide nothing but the facts – Avoid speculation or opinion – it can be inaccurate and upsetting to those involved in the critical incident.
- Express
 - the need to reduce and prevent further stress
 - the need to stabilize the situation
 - normal functioning of the school and its individual members
 - individuals will get the help they need.
- Give a prepared statement rather than an interview and anticipate the worst possible questions. Write it down as it gives you time to think about what you want to say rather than responding in an ad hoc manner.
- Immediately correct any incorrect or misleading information – by interrupting if necessary.
- Offer a written statement which could include an expression of school's grief and what the school has done so far e.g. contact with parents, clergy, Education Authority (EA) support staff etc.
- Do not apportion blame or liability to anyone even in 'off the record' conversations.
- Remember to praise and thank any person or service that have helped during the incident.
- Remember that there are no 'off the record' conversations and that all contact with the press should be treated with caution.
- Report on positive developments following the event. Following a tragic situation, it is important to give the Press information.
